## WELCOME TO OUR PRODUCT CATALOGUE

Hello,

We hope you will enjoy our catalogue and that you will find it a beneficial resource to you and your organisation.

We have updated it with many new and exciting products.

At **WorkWear Experts** we import and distribute **Quality Branded Workwear, Corporate Uniforms and Personal Protective Equipment** for a wide and varied range of tasks and clients.

Our **Expert** Teams have accumulated vast industry experience over many years, and we are on hand to provide Workwear Solutions for **You**. Why not let us offer **You** a solution today!

We have warehousing and supply chain management facilities in **Ireland** and the **UK** servicing customers throughout **Europe** and further afield.

We offer our clients personal, tailored solutions to their **Workwear, Safety Protection and Uniform needs**.

We are proud to be an **ISO9001 Certified Company** and we offer world class quality and service.

Backed by **Premium Quality Certified Product**, and **Competitive Pricing Structures**, it is our mission to build **Long Lasting, Mutually Beneficial Relationships** with all our clients. We **Strive** to do this in everything we do.

Our catalogue will give you a really good idea of the services that we can offer you.

Our website **WorkWearExperts.com** is on line **24 hours a day, 365 Days** a year.

Once you have registered, it offers you full access to us at any time that suits you!

It is regularly updated, easy to use, and it rewards you for your **Online Business and Loyalty** to us.\*

### It is more than a web site

- ✓ It is a portal designed to make life easier for our customers through easy identification of Products
- ✓ Favourite Products
- ✓ Pictures
- ✓ Videos
- ✓ Technical Details
- ✓ Logo Management
- ✓ Prices Details
- ✓ Alternative Products
- ✓ Order Tracking
- ✓ Full Account Management
- ✓ All with the added benefit of bonus points to reward your loyalty

We have many great solutions to save you time - designed to save you money and not waste your precious resources.

Open your web account today, and see what we have to offer!

# FOOTWEAR

## EN ISO 20345 / EN345

**EN345:** Requirements & test methods for protective safety footwear, where footwear made to the standard requires:

- a) Safety Toe Cap providing 200 Joules Toe protection
- In addition it has :
- b) Passed a compression test
  - c) The Upper is of a certain thickness
  - d) Quality test

The Sole is tested for:

- a) Heat Resistance,
- b) Abrasion
- c) Oils
- d) Chemicals
- e) Shock Absorption

## Categories

**Class 1** = Leather upper

Various standards for **Class 1** products are as follows:

**SB** = safety toe cap

**SBP** = safety toe cap + pierce resistant midsole

All **S1, S1P, S2, S3** footwear have the following features:

- Anti static
- Shock absorbing heel
- Anti slip
- Oil & acid resistant soles

**S1** = safety toe cap

**S1P** = safety toe cap + pierce resistant midsole

**S2** = safety toe cap + water repellent upper

**S3** = safety toe cap + pierce resistant midsole + water repellent upper

**Class 2** = Rubber / PVC / PU upper

**S4** = Class 2 footwear with a safety toe cap

**S5** = Class 2 footwear with a safety toe cap and a pierce resistant midsole

### Slip resistance requirements

**SRA** Slip resistance on ceramic tile floors with sodium lauryl sulfate (SLS)

**SRB** Slip resistance on steel floors with glycerol

**SRC** Includes all characteristics of SRA + SRB

## Footwear Terms and Symbols

**EVA** Ethylene Vinyl Acetate. Considered an eco-friendly shoe material.

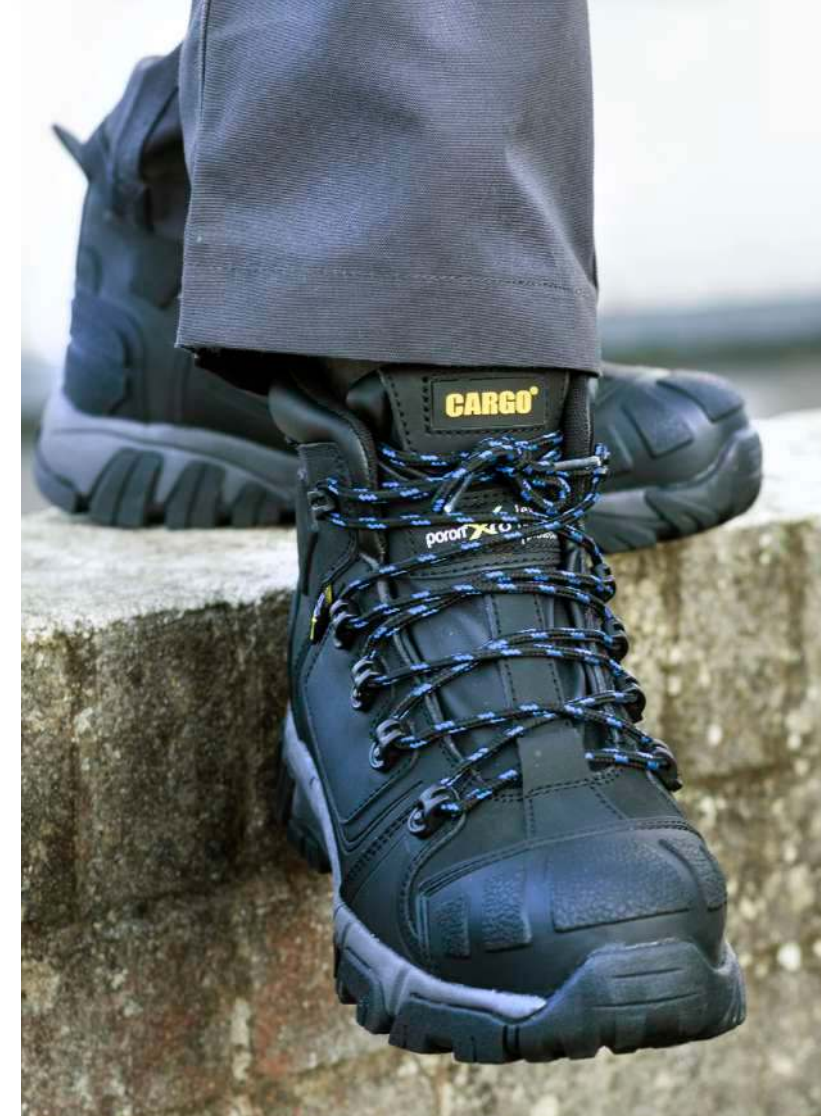

**Kevlar®** Very strong and durable synthetic material.

100% free of metal parts. Suitable for work in security, aviation and general environments.

This product keeps the wearer dry in extremely wet conditions.

### Safety Feature Symbols

# HI - VIS

HI VIS Vests

## ENISO 20471 - Protection Against Low Visibility Hazards

Grouped into 3 classes according to the visibility required.

The classes dictate the minimum quantities of fabrics used.

- Class 1:** Lowest level of protection, for min risk / off road purposes. Bands of reflective shall not be less than 50mm wide. Min background material 0.14m<sup>2</sup>. Min reflective material 0.10m<sup>2</sup>.
- Class 2:** Intermediate level of protection. Bands of retroreflective material shall not be less than 50mm wide. Min background material 50m<sup>2</sup> minimum retroreflective material 0.13m<sup>2</sup>.
- Class 3:** Highest level of protection. Bands of reflective material shall not be less than 50mm wide. Min background material .80m<sup>2</sup>. Min reflective material .20m<sup>2</sup>. Horizontal reflective bands can not have incline of +/-20°.

EN ISO 20471

Class X

## EN343 - Foul Weather Protection

The first digit denotes its water penetration resistance, whilst the second digit denotes its breathability.

EN343

Class X:Y

**EN343 Resistance to Water Penetration (X)** is subdivided into three sub-levels:

- Class 3** affords the highest level of foul weather protection
- Class 2** provides an intermediate foul weather protection
- Class 1** provides the lowest level of foul weather protection.

**EN343 Breathability (Y)** is also subdivided into three sub-levels:

- Class 3** affords the highest level of breathability
- Class 2** provides an intermediate level of breathability
- Class 1** is not classified as breathable under the standard.

## GO/RT 3279/RIS3279 Railway Group Standard

It mandates minimum requirements for high visibility clothing to ensure people are conspicuous when on the line side or on or near the line. Items marked GO/RT 3279 will also meet the requirements of the new Rail Industry Standard RIS-3279-TOM. Applies to Orange Garment Only

## EN 1150

Visibility standard for non professional use.

Each garment must consist of both background material, (luminous, such as yellow) and retro reflective materials.

@WorkWearExperts1 @WorkWearExperts @WorkWearExperts

We are specialists in Corporate Identity Branding  
WE PROVIDE THE BEST EMBROIDERY SERVICE IN TOWN!

We offer a bespoke embroidery and screen printing service, ideal for workwear, uniforms, corporate and promotional clothing. Branding your Workwear presents a great marketing opportunity to get your name seen in the market place.

REASONS TO BRAND YOUR WORKWEAR:

- It Enhances Your Brand Image
- It is Direct Advertising
- Inspires Employees To Maintain Your Brand Values
- Brand Recognition
- It Promotes Professionalism

THE WEBSITE:

- Belt Loops
- Machine washable

**COLOURS:** Black, Navy, Grey  
**SIZES:** 6 - 24 W  
Leg: 29, 31, 33, 36 Unhemmed

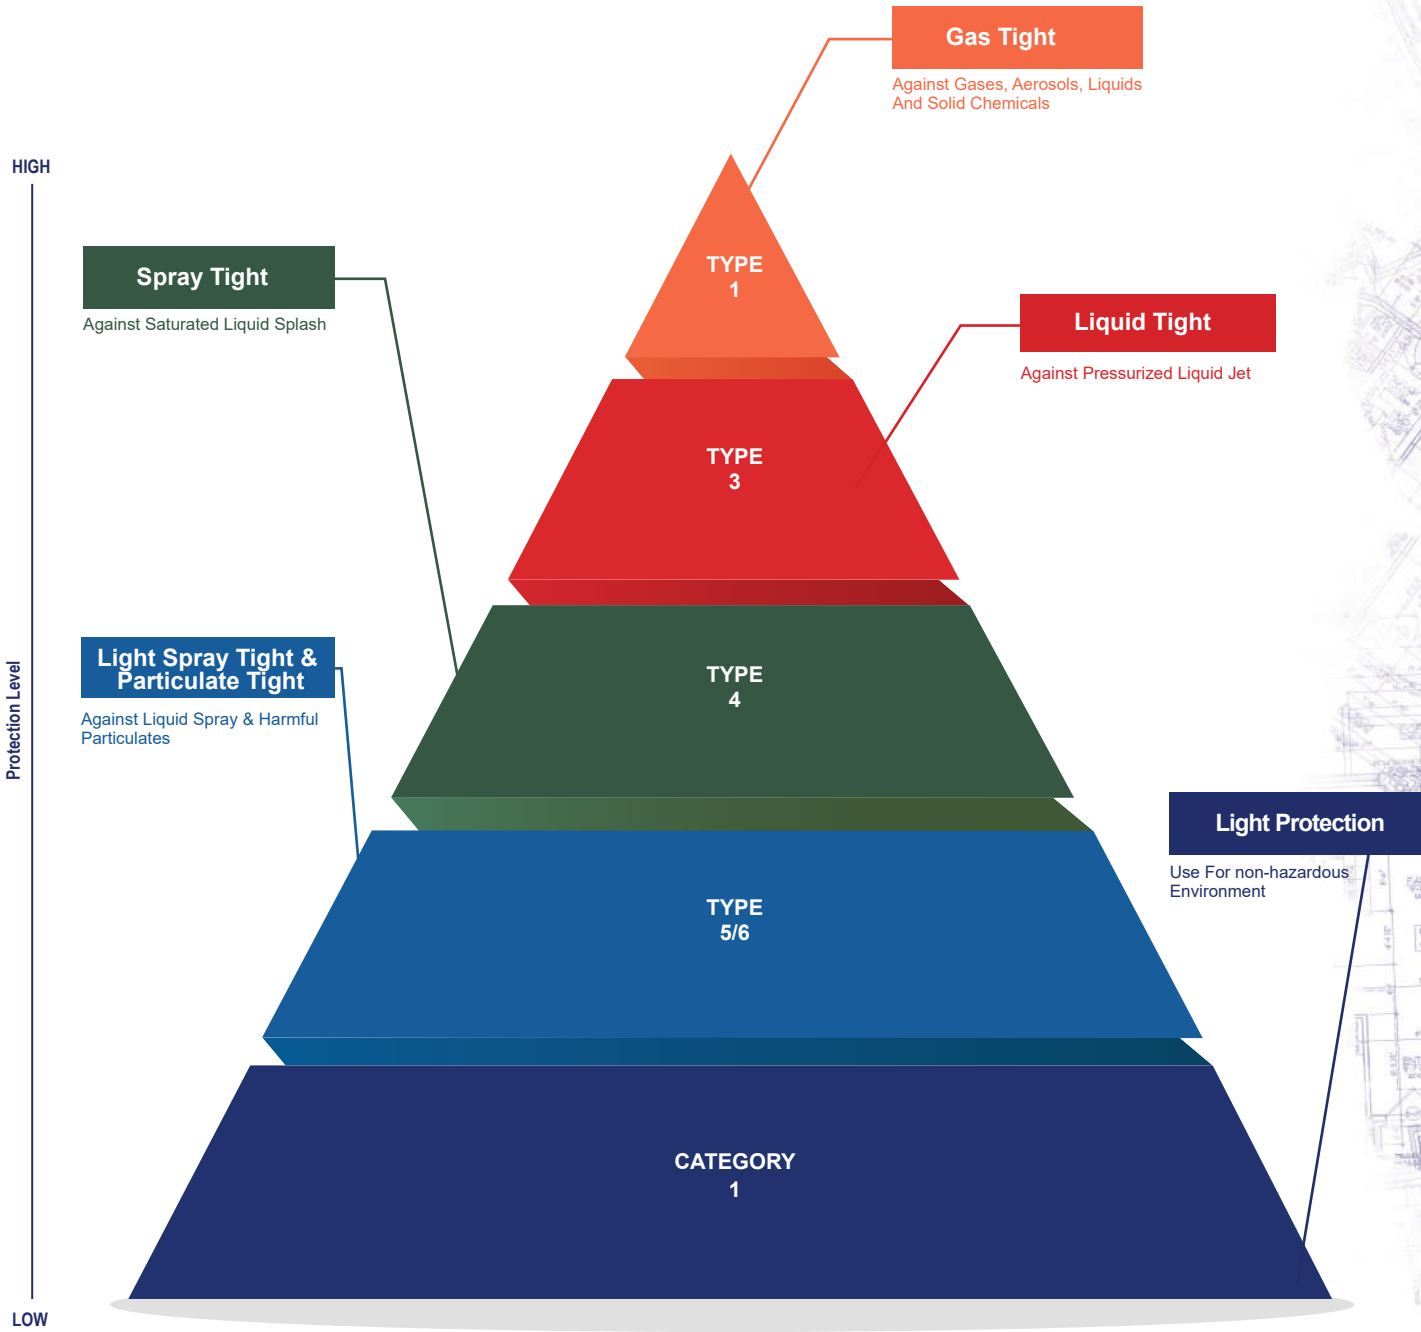

# DISPOSABLES & CHEMICAL PROTECTION

## CE STANDARDS FOR PROTECTIVE CLOTHING

Protective clothing is designed to resist various hazardous situations. Regulation (EU) 2016/425 indicates the categories of risk against which PPE is intended to protect users. Chemical protective clothing complies with Category III, which includes exclusively the risks that may cause very serious consequences such as death or irreversible damage to health. The requested certification is explained below.

 TYPE 1	<b>TYPE 1 EN 943-1</b> Gas Tight Suits Protective clothing against dangerous solid, liquid and gaseous chemicals, including liquid and solid aerosols.	 TYPE 3B	<b>TYPE 3 EN 14605</b> Liquid Tight Suits Suits which can protect against strong and directional jets of a liquid chemical such as spray from a burst pipe under pressure. Requires a barrier fabric and sealed seams.
 TYPE 4B	<b>TYPE 4 EN 14605</b> Spray Tight Suits Suits which can protect against saturation of liquid chemical, where the volume of the liquid builds up on the suit forming pools, resulting in rivulets. Requires a barrier fabric and sealed seam.	 TYPE 5B	<b>TYPE 5 EN ISO 13982-1</b> Dry Particle Suits Suits for protection against hazardous dry particles.
 TYPE 6B	<b>TYPE 6 EN 13034</b> Reduced Spray Suits Suits for protection against light spray and splashes of liquid chemicals where there is no directional spray or build up of liquid on the suit, but there may be a fine mist of droplets in the atmosphere.	 Nuclear Particles Class2	<b>AGAINST RADIOACTIVE PARTICLES EN 1073-2</b> Protective clothing against particulate radioactive contamination. Suits for protection against hazardous dry particles.
 Anti-static	<b>ANTI-STATIC EN 1149-5</b> Protection against static electricity or charge decay.	 Infective Agents	<b>AGAINST BIOLOGICAL HAZARDS EN 14126</b> Protection against biological hazards and infective agents.
 Index 1	<b>AGAINST LIMITED FLAME SPREAD PROTECTION EN ISO 14116</b> Limited flame spread materials, material assemblies, and clothing. Index 1: all materials and assemblies.		<b>AGAINST PESTICIDES DIN 32781</b> Protective clothing against particulate radioactive contamination. Suits for protection against hazardous dry particles.

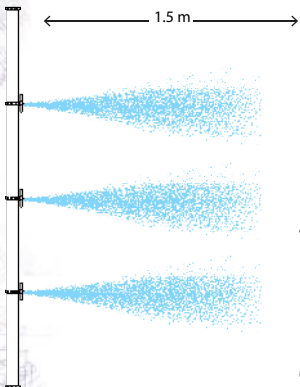

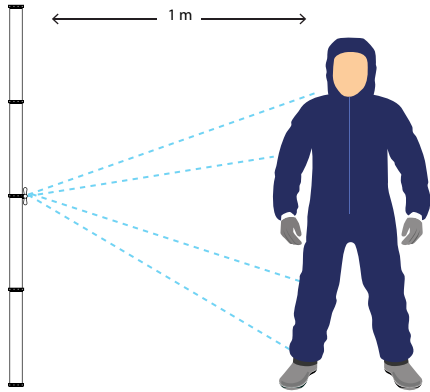

TEST METHOD

TYPE 3 EN 14605 Liquid Jet Suits

Determination of resistance to penetration by a jet of liquid

- Fabric, seams and joints being tested with intense and pressurized liquid jet
- Low surface tension of liquid jet
- Requires coveralls with fully sealed seam
- One nozzle sprays at potential weak areas of coverall including chinstrap, crotch, zipper flap and joints

TYPE 4 EN 14605 Spray Tight Suits

Determination of resistance to penetration by liquid spray

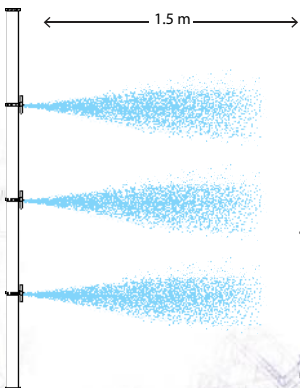

- 4 nozzles with general overspray of liquid without penetration on coverall
- Low surface tension of liquid sprays being tested on whole garment to experiment saturation of fabric
- Fabric, seams and joints being tested without pressurized liquid spray

TYPE 5 EN ISO 13982-1 Particulate Tight Suits

Determination of inward leakage of aerosols & solid particles

- Spray cabin filled with particles
- The test is performed by a real person, aims to simulate daily use
- Subject (real person) performs 3 exercises on treadmill
- Particle inward leakage(IL) and total inward leakage(TIL) must meet test requirements

TYPE 6 EN ISO 13034 Reduced Spray Suits

Determination of resistance to penetration by reduced liquid spray

- 4 nozzles with general overspray of liquid without penetration on coverall
- Low surface tension of liquid sprays being tested on whole garment to experiment saturation of fabric
- Fabric, seams and joints being tested without pressurized liquid spray
- About 40% of the liquid spray is loaded onto the suit compared with Type 4 test

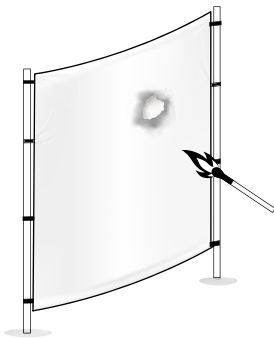

TEST METHOD

EN 1073-2 Against Radioactive Particles

Determination of inward leakage of aerosols & solid particles

- The standard was developed to be applied in the nuclear industry with no protection against ionizing radiation
- The test follows the same protocols a Type 5 test with different judgement criteria
- 3 classifications indicate different protection level

EN ISO 14116 Flame Retardant Test

- To check whether the fabric/materials burn while contacting heat exposure
- To check whether the fabric stops flame spreading if burned
- Requirements for limited flame spread Index 1 including no spreading of the flame, no flaming debris, no afterglow, a hole may be formed

EN 14126 Against Biological Hazards

- The standard specifies a set of requirements and test methods to measure the fabric protection against infective agents
- ISO 16603, ISO 16604, ISO/DIS 22611 determines penetration by blood, body fluids, blood borne and biologically contaminated aerosol
- ISO 22612, ISO 22610 determines the resistance of dry and wet microbial penetration

Test	Requirement
Bursting Strength (13938 - 1)	Class 6 > 850 kPa
	Class 5 > 640 kPa
	Class 4 > 520 kPa
	Class 3 > 160 kPa
	Class 2 > 80 kPa
	Class 1 > 40 kPa
Resistance to penetration by blood-borne pathogens - phi-x174 bacteriophage test - EN ISO 16603/16604	Class 6 20 kPa
	Class 5 14 kPa
	Class 4 7 kPa
	Class 3 3.5 kPa
	Class 2 1.75 kPa
	Class 1 0 kPa
Resistance to penetration by infective agents due to mechanical contact with substances containing contaminated liquids - EN ISO 22610 (test microorganism: staphylococcus aureus)	Class 6 t > 75
	Class 5 60 < t < 75
	Class 4 45 < t < 60
	Class 3 30 < t < 45
	Class 2 15 < t < 30
	Class 1 <= 15 min
Resistance to penetration by contaminated liquid aerosols - EN ISO DIS 22611 (test microorganism: staphylococcus aureus)	Class 3 log > 5
	Class 2 3 < log <= 5
	Class 1 1 < log <= 3
Resistance to penetration by contaminated solid particles - EN ISO 22612 (test microorganism: spores of Bacillus subtilis)	Class 3 <= 1
	Class 2 1 < log ufc <= 2
	Class 1 2 < log ufc <= 3

EN 1149-5 Antistatic

- The standard specifies a set of requirements and test methods to measure the fabric protection against static electricity or charge decay
- Electrostatic resistance is required when the worker is exposed to environments where sparks could cause explosions or ignition
- Coveralls according to this standard do not offer protection from main voltages

Against Pesticides DIN 32781

- The test standard covers requirements in chemical penetration, fabric strength and ergonomics
- The certification includes EN 14786, which simulates liquid spray of drugs
- Five different pesticides including U46-D-Fluid (BASF), Pirimor Granulat (Syngenta), Amistar, (Syngenta), Betanal Expert (Bayer), Folicur (Bayer) are tested to ensure protection against pesticides

# SMS FABRIC DISPOSABLE SUITS

chemsplash  
Xtreme SMS 50

## 2544 chemsplash Xtreme 50 SMS Coverall Type 5/6

- 50GSM Breathable SMS Fabric
- Elasticated Hood
- Elasticated Cuffs
- Elasticated Ankles
- Two Way Zip
- Adhesive Zip Flap
- Silicone & Latex Free

**STANDARD:** Cat III Type 5 & 6

**COLOURS:** White, Blue, Red, Orange

**SIZES:** S-3XL

### Applications:

- Asbestos Related Work
- Handling Powders
- Food Processing
- General Maintenance
- Construction
- Agriculture

- Elasticated at Both Ends
- All Seams Are Sewn And Welded

STANDARD: EN14605  
COLOURS: Green  
SIZES: 15"

Glove EN Standards

European standards for protective gloves are generally represented by a shield-shaped pictogram (risk protection symbol) associated with a list of performance levels obtained at one or several tests in a laboratory.

In the collection of gloves in this catalogue the EN Standards that are dealt with are:

EN420	General Requirements	
EN455	Requirements for single use medical gloves	
EN388	Mechanical Risks	
EN511	Risks with Cold	
EN407	Thermal Risks Heat and Fire	
EN12477	Gloves for Welders	
EN374-2	Micro-organic Risks	
EN374-3	Chemical Risks	
EN1186	Suitable for contact with food	
ISO10819	Vibrations and Impacts	

The digits after the EN code, or below the symbol, represent the lab test results. The higher the score the better the performance. X denotes no test was carried out.

Sizes

Size 6	Extra Small
Size 7	Small
Size 8	Medium
Size 9	Large
Size 10	XL
Size 11	XXL

EN 374-3: Resistant to Permeation by Chemicals

This is where things get more interesting. EN 374-3 will do the same water test as in EN 374-2, but it will be done with any of three chemicals rather than water. The three test chemicals are any of the following, and will be represented by the letter in the table that corresponds with the chemical.

CHEMICAL	CODE LETTER	CHEMICAL	CODE LETTER
Methanol	A	n-Heptane	J
Acetone	B	Sodium hydroxide 40%	K
Acetonitrile	C	Sulphuric acid 96%	L
Dichloromethane	D	Nitric acid 65%	M
Carbon disulphide	E	Acetic acid 99%	N
Toluene	F	Ammonium hydroxide 25%	O
Diethylamine	G	Hydrogen peroxide 30%	P
Tetrahydrofuran	H	Hydrofluoric acid 40%	S
Ethyl acetate	I	Formaldehyde 37%	T

EN455

EN 455 Medical Gloves for Single Use covers any glove that could be used for medical work. The glove must adhere to four separate parts before it is considered safe to be used for medical practice. The four parts are:

- Part 1: Requirements and testing of gloves for freedom from holes
- Part 2: Requirements and tests for physical properties
- Part 3: Requirements and tests for biological evaluation
- Part 4: Requirements and testing for shelf life determination

EN455 is not part of the PPE Regulation 2016/425, and it being noted on any gloves in this catalogue is based on Test reports only

The materials may also achieve a level depending on how much time it took for the chemical to pass through the glove. The following table demonstrates which level a glove will achieve depending on how much time elapses prior to permeation.

Performance Level	Time passed before chemical breakthrough (minutes)
Level 1	>10 minutes
Level 2	>30 minutes
Level 3	>60 minutes
Level 4	>120 minutes
Level 5	>240 minutes
Level 6	>480 minutes

Selected Head Protection EN Standards

- EN397:** Specifies the physical & performance requirements of industrial safety helmets.
- EN812:** This standard deals with Industrial bump caps that provide protection to the wearer against the effects of striking the head against hard, stationary objects with sufficient force to cause lacerations or other superficial injuries or to stun the wearer.

Certain tests are mandatory shock absorption, resistance to penetration. Flame resistance & chin strap anchorage

**EN352 - 2** Specification for Ear Plugs  
**EN352 - 3** Specification for Helmet Mounted Muffs  
**EN352 - 4** Specification for Level Dependent Muffs  
**EN352 - 5** Specification for active noise reduction muffs  
**EN352 - 6** Specification For Muffs with Electrical Audio Input  
**EN352 - 7** Specification For Level dependent Ear Plugs  
**SNR =** Standard Noise Reduction. SNR is a general means of comparing earmuff & earplug protection

Generally the Higher the SNR rating the better the performance of the Earmuff or Earplug across the range of noise frequencies.

The figures associated with:

- H** = High
- M** = Medium
- L** = Low

These frequencies indicate the level of protection at the various High, Medium or Low Frequency noises.

**NB:** If Noise Level is 80 Decibels the Employer must provide hearing Protection. If Noise Level is 85 Decibels the Employer must ensure the Hearing Protection is Worn.

1 **3321 3M Ear Classic Foam Earplug**

- Polymer Foam Earplugs
- Conforms Exactly To Any Ear Canal
- Pack: 250 Pairs

**STANDARD:** EN352-2 SNR28

4 **3354 Moldex Spark Soft Earplug**

- Comfortable multi-coloured PU Foam
- Contoured Shape
- Pack: 500 Pairs

**STANDARD:** EN352 SNR 35

7 **3457 Metal Detectable Corded Earplug**

- Detectable PU Corded Earplug
- PU Foam Earplugs
- Small 2.4mm Brass Ball In Each Plug
- Detection By Metal Detector
- Extremely High SNR 37 For Noisy Environments
- Individually Wrapped
- Pack: 200 Pairs

**STANDARD:** EN352 SNR 37

10 **3308 3M EAR One Touch Earplug Dispenser (Empty)**

- Neon Disposable Earplug Dispenser Unit
- Supplied Empty
- Requires 3322 Earplug Ear Plug Container

2 **3332 Ear Plug - Uncorded**

- Soft PU Uncorded Earplug UC-EP03
- Expands Gradually to Most Ear Canal Shapes
- Each Pair Individually Wrapped in Polybag
- Case: 200 pairs

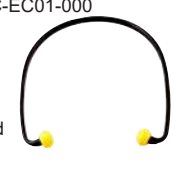

**STANDARD:** EN352-2 SNR 37

5 **3326 Banded Ear Plugs**

- Banded Earplug UC-EC01-000
- Convenient Banded Design
- Can Be Worn Over or Behind the Head
- Locates Conveniently Round the Neck When Not In Use
- Pack: 1 pair
- Case: 20 pairs

**STANDARD:** EN352-2 SNR 20

5.1 **3355 Replacement PODS**

8 **3327 Corded Soft Foam Ear Plug**

- Soft PU Corded Foam Earplug
- Foam Expands Gradually
- Conforms to the Shape of Most Ear Canals
- For Very Noisy Environments
- Individually Wrapped
- Extremely Cost Effective
- Pack: 200 Pairs

**STANDARD:** EN352-2 SNR 37

11 **3322 Refill Bottle**

- Expandable Foam Cylindrical Plugs
- Individually wrapped
- Fits One Touch Dispenser 3308
- Bottle of 500

**STANDARD:** EN352 SNR 28

13 **3348 EP03 Earplug (Refill) (500 pcs)**

- Soft Pu Foam
- Gradually Expand In The Ear Canal
- Self Dispensing Box To Fit 3526 Dispenser

**STANDARD:** EN352-3 SNR37

3 **3323 Laser Lite Hi-Vis Foam Earplugs**

- Vibrant Colors For Visibility
- Self-Adjusting Polyurethane Foam
- Contoured T-Shape for Easy Insertion and Wear
- Pack: 200 Pairs

**STANDARD:** EN352-2 SNR 35

6 **3359 3M - EAR Cap Banded Plug**

- Semi-Aural Hearing Protector
- Can be used for visitors
- Replaceable Ear Caps
- Pack: 1 pair / Case: 40 pairs

**STANDARD:** EN352-2 SNR 23

6.1 **3301 Replacement PODS**

9 **3325 Ultra Fit Corded Earplug**

- Ultra Fit Corded Earplug
- Patented Triple Flange Design
- Conforms Easily to the Ear Canal
- Providing Comfort
- Consistent Fit and Protection
- Pack: 50 Pairs

**STANDARD:** EN352-2 SNR29

12 **3526 Soft Polyurethane Earplug Dispenser (Includes 500 Plugs)**

- Free Standing or Wall Mounted Dispenser Unit
- Supplied with 500 Pairs of Soft PU Foam Plugs
- Plugs Expand Gradually to meet Ear Canal Shape
- Refill bag of 500

**STANDARD:** EN352-3 SNR37

**3334 Economy Earmuff**

- High Performing Earmuff
- Safe Protection Against Industrial Noise
- SNR 26
- Quick Shift Height Cups
- Broad Soft Ear Cushions
- Comfortable Fit and Seal

**STANDARD:** EN 352-1 SNR=26  
**COLOURS:** Red & Black

**3336 FM Radio Earmuff**

- FM Radio Earmuff High Attenuating
- Complete With a Built in Stereo FM Radio
- Adjustable Volume and Balance Control
- Operating Life of Approx 200 Hours
- SNR 28
- Volume Limited to 82db
- AA Batteries Supplied

**STANDARD:** EN352 SNR=28  
**COLOURS:** Yellow

**3357 EP106 Deluxe Ear Muff**

- Head Band Ear Muff
- Comfortable Foam Filled Cups
- Soft Padded Headband
- Lightweight 166g Per Pair
- SNR27.5

**STANDARD:** EN352-1 SNR=27.5  
**COLOURS:** Yellow

**3356 HB650 - Ultrasonic Earmuff**

- Ultrasonic Earmuff
- Headband Type
- SNR 34
- Pressure Equalizing Headband Provides Even Fit and Seal
- Superseal Ear Cushions
- Flexible Suspension to Allow Automatic Adjust to Face Shape
- Weighs only 8.9oz

**STANDARD:** EN 352-1 SNR=34  
**COLOURS:** Black

**3353 EP107 Earmuff with Head Band**

- Head Neck Band Ear Muff
- Sealing Ear Cushions for Long Term Comfort
- Soft Cushioned Headband
- Easy Adjustment
- Sophisticated Design
- Comes Complete with Attachable Head Strap
- SNR32

**STANDARD:** EN352-1 SNR32  
**COLOURS:** Black / Yellow

**3346 Earmuff To Attach To 3405 Helmet**

- Helmet Mounted Earmuff With Euroslot Fitting
- Spring Loaded Stand Off Function
- 27DB Rating
- Good Seal Against Noise
- Fits Climax 3405 Helmet

**STANDARD:** EN354-3 SNR27

**3339 Optime I Earmuff Neckband Wire Version**

- High Performing Neckband Earmuff
- Safe Protection Against Industrial Noise
- SNR 26
- Wide Comfortable Sealing Rings
- Optimum Sealing with Low Contact Pressure

**STANDARD:** EN 352-1 SNR=26  
**COLOURS:** Yellow / Black

**3338 Optime I Hygiene Replacement kit**

- 2 rings & 2 pad

**3340 Optime II Earmuff Headband Version**

- High Performing Folding Earmuff
- Adjustable Protection Levels
- SNR31
- Sealing Rings Contain Liquid and Foam
- Easy Storage When Folded

**STANDARD:** EN 352-1 SNR=31  
**COLOUR:** Green / Black

**3343 Optime III Hygiene Replacement kit**

- Hygiene Kit For 3m Peltor Ear Defenders
- The Replacement Hygiene Kit Contain New Sealing Rings
- And Muffler Pads
- Easy To Replace

**3309 Optime II Earmuff Helmet Attachable**

- Works With MSA & Petzl Slot Fix Systems
- Comfortable and Robust Earmuff
- SNR30
- P3E Helmet Attachment for Helmet Mounting

**STANDARD:** EN 352-3 SNR=30  
**COLOUR:** Green / Black

\*See 3343 for Replacement Kit

**3344 Optime I Earmuff Headband Version**

- High Performing Earmuff
- Low Profile Design Minimising Obtrusiveness
- SNR 27
- Lightweight and Highly Comfortable

**STANDARD:** EN 352-1 SNR=27  
**COLOURS:** Yellow / Black

\*See 3338 for Replacement Kit

**3318 Optime II Earmuff with Neck Band**

- High Performing Neck Band Earmuff
- Lightweight and Comfortable
- SNR 31
- Sealing Rings Contain Liquid and Foam
- Allow Other PPE Equipment be worn

**STANDARD:** EN 352-1 SNR=31  
**COLOUR:** Green / Black

\*See 3343 for Replacement Kit

**3342 Optime III Earmuff Headband Version**

- Maximum High Frequency Headband Earmuff
- Lightweight
- SNR 35
- Broad Sealing Rings with Plastic Foam
- Comfortable Low Contact Pressure Fit

**STANDARD:** EN 352 SNR=35

**3302 Optime III Earmuff Neckband Wire Version**

- Maximum High Frequency Neckband Earmuff
- Lightweight
- SNR 35
- Broad Sealing Rings with Plastic Foam
- Comfortable Low Contact Pressure Fit

**STANDARD:** EN 352-1 SNR=35

Respiratory EN Standards

- EN136: Full Face Masks
- EN140: Half Masks
- EN141: Gas / Vapour Filters & Combined Filters
- EN143: Particle Filters
- EN149: Filtering Half Masks
- EN166: Basic Standards for Eye Protection
- EN371: AX gas filters (against low boiling organic compounds)
- EN372: SX gas & combined filters (against specific compounds)
- EN405: Valved Filtering Half Mask respirators for gases & or particles

Filter Classification

**FFP1:** Disposable Particulate Respirators are approved for use against solid and liquid aerosols according to EN149:2001. They are suitable for protection from low toxicity harmful materials in concentrations up to 4 x WEL

**FFP2:** Disposable Particulate Respirators are approved for use against solid and liquid aerosols according to EN149:2001. They are suitable for protection from low to average toxicity harmful materials in concentrations up to 12 x WEL

**FFP3:** Disposable Particulate Respirators are approved for use against solid & liquid aerosols according to EN149:2001. They are suitable for protection from high toxicity harmful materials in concentrations up to 50 x WEL

OEL: Occupational Exposure Limits

1 3669 CARGO® P1 Disp. Cup Mask

2 3670 CARGO® P1 Disp. Fold Flat Mask  
(Fold Flat Masks are Individually Wrapped in Poly Bag)

- P1CVS Cup Mask
- Valved Mask FFP1
- Filtering Efficiency 80%
- Respirator with Green Colour Coded Exhalation Valve
- Woven Elasticated Sewn Head Band With Adjustable Toggle
- Metal Adjustable Nose Clip With Padded Comfort Band
- Excellent Fit Test Qualities
- Protects Against Fine Dusts, Particles, Water And Oily Mists
- Pack 10 pcs / Case 320 pcs

STANDARD: EN149-FFP1  
Assigned Protection Factor: 4 X OEL

3 3672 CARGO® P2 Disp. Cup Mask

4 3673 CARGO® P2 Disp. Fold Flat Mask  
(Fold Flat Masks are Individually Wrapped in Poly Bag)

- P2CVS Cup
- Valved Mask FFP2
- Filtering Efficiency 94%
- Respirator With Yellow Colour Coded Exhalation Valve
- Woven Elasticated Sewn Head Band With Adjustable Nose Clip
- Padded Comfort Band On Inside
- Excellent Fit Test Qualities
- Protects Against Fine Toxic Dust, Particles
- Also Against Water And Oily Mists
- Pack 10 pcs / Case 320 pcs

STANDARD: EN149-FFP2  
Assigned Protection Factor: 10 X OEL

5 3671 CARGO® P2 (Carbon Disposable Welding Mask)  
(Individually Wrapped in Poly Bag)

- Filtair P2FVSC Fold Flat Valved Carbon Mask FFP2
- Filtering Efficiency 94%
- Fold Flat Respirator Yellow Colour Coded Exhalation Valve on Side
- Woven Elasticated Sewn Head Band with Adjustable Toggle
- Metal Adjustable Nose Clip
- Excellent Fit Test Qualities
- Protects Against Welding Fumes, Vapours, Fine Toxic Dust, Particles, Water and Oily Mists
- Carbon Layer for Welding
- Pack 10 pcs / Case 320 pcs

STANDARD: EN149-FFP2- Welding  
Assigned Protection Factor: 10 X OEL

1 3614 3M™ Aura 9312+ Flat-Fold Particulate Respirator

- Optimum comfort and easy communication
- Improved compatibility with reduced fogging of eyewear
- Innovative chin tab to improve the ease of fitting
- Provides respiratory protection against low levels of fine dusts and mists
- 3M™ Cool Flow™ exhalation valve offers improved comfort in hot and/or humid environments and where work is physically demanding
- Fold-Flat, easy to store, proprietary 3-panel design accommodates facial movement for wearer comfort
- Even-tensioned straps relieve pressure for a comfortable and secure fit

STANDARD: EN149 FFP1

Box of 10

2 3612 3M™ Aura 9322+ - Foldable Mask

- Low resistance to breathing
- Fold Flat for easy storage
- 3 panel design accommodates facial movement
- Individually Hygienically Packed
- 3M Cool Flow Exhalation Valve
- Smooth Inner and Large Foam Nose Rest for comfort to wearer
- Even Tensioned Straps for more comfortable fit
- Blue Colour coded denoting FFP2

STANDARD: EN149 FFP2 NR D

Box of 10

3 3615 3M™ 8822 Particulate Respirator

- The 8000 Respirator Series offers solid, professional protection at an affordable price
- This range forms part of your basic equipment for many different work environments
- The convex cup-shape design, along with twin strap design, nose foam and nose clip ensure comfortable wear over a range of face sizes
- The collapse resistant shell offers durable, comfortable protection particularly in hot and humid conditions
- Provides respiratory protection against moderate levels of fine dusts and mists

STANDARD: EN149 FFP2 NR D

Box of 10

1

3492

CARGO® P3 Premium Valved Cup Molded Mask

- Cup Shaped P3CVS Premium Valved Mask
- Filtering Efficiency 99%
- With Red Colour Coded Exhalation Valve
- Plastic Welded Woven Elasticated Adjustable Headband
- Metal Adjustable Nose Clip
- Protects Against Fine Toxic Dust,Fumes,Particles
- Also Water And Oily Based Mists
- Pack 5 pcs / Case 60 pcs

STANDARD: EN149-FFP3

Assigned Protection Factor: 30 X OEL

2

3675

CARGO® P3 Fold Flat Valved Moulded Mask

(Individually Wrapped in Poly Bag)

- Fold Flat P3FVS Valved Mask
- Filtering Efficiency 99%
- Fold Flat Respirator with Red Colour Coded Exhalation Valve
- Woven Elasticated Sewn Head Band with Adjustable Toggle
- Metal Adjustable Nose Clip
- Protects Against Fine Toxic Dust,Fumes,Particles
- Also Water and Oily Based Mists
- Pack 10 pcs / Case 320 pcs

STANDARD: EN149-FFP3

Assigned Protection Factor: 30 X OEL

3

3528

CARGO® P3 Standard Valved Cup Molded Mask

- Cup Shaped P3CVS Valved Mask
- Filtering Efficiency 99%
- With Red Colour Coded Exhalation Valve
- Woven Elasticated Head Band
- Metal Adjustable Nose Clip
- Protects Against Fine Toxic Dust, Fumes,Particles
- Also Water and Oily Based Mists
- Pack 10 pcs / Case 320 pcs

STANDARD: EN149-FFP3

Assigned Protection Factor: 30 X OEL

4

3506

VIC P1 Valved Cup Dust Mask

- P1 Valved Cup Mask
- Valved Mask FFP1
- Filtering Efficiency 80%
- Respirator with Green Colour Coded Exhalation Valve
- Woven Elasticated Sewn Head Band
- Metal Adjustable Nose Clip with Padded Comfort Band
- Excellent Fit Test Qualities
- Protects Against Fine Dusts, Particles, Water and Oily Mists
- Latex Free

STANDARD: EN149-FFP1

5

3508

VIC P2 Valved Cup Dust Mask

- P2 Cup Valved Mask FFP2
- Filtering Efficiency 94%
- Respirator With Yellow Colour Coded Exhalation Valve
- Woven Elasticated Sewn Head Band
- Adjustable Padded Nose Clip
- Protects Against Fine Toxic Dust,Particles
- Also Against Water And Oily Mists
- Latex Free

STANDARD: EN149-FFP2

6

3547

VIC P3 Valved Cup Dust Mask

- Cup Shaped P3 Valved Mask
- Filtering Efficiency 99%
- With Red Colour Coded Exhalation Valve
- Woven Elasticated Head Band
- Metal Adjustable Nose Clip
- Protects Against Fine Toxic Dust, Fumes,Particles
- Also Water and Oily Based Mists
- Latex Free

STANDARD: EN149-FFP3

7

2582

3 Ply Surgical Face Mask

- 3 Ply Surgical Face Mask
- With Elasticated Ear Loops
- Integrated Plastic Nose Clip Strip
- Latex Free

STANDARD: CE Marked

COLOURS: Blue, White

8

3652

CARGO® P2 Cup Mask NO Valve

- Disposable P2 Cup Mask
- Used to Filter Particulates Dust and Fine Dust

STANDARD: EN149-FFP2

Respiratory Filter Selection

Selecting the correct respiratory protection requires a working knowledge of the relevant legislation, respiratory hazards and the various types of Respiratory Protective Equipment (RPE) that are available. Selection of Respiratory Protection follows a basic four step method:

1.

Identify the hazards - Dust, mist, metal fume, gas, vapour
2.

Assess the hazards - Measure the hazard level & Assess other possible protection required - skin & eye
3.

Select the proper respirator - Disposable, Half mask, Full face, Powered, Airline

4.

Training in fitting and use - To optimise respiratory protection. When matching the performance level of Respiratory Protection to the measured respiratory hazard level, the Assigned Protection Factor should now be used in place of the Nominal Protection Factor.

**Assigned Protection Factor (APF)**  
based on workplace protection factor studies and listed in BS4275. This figure is used for selection calculations

Respiratory Hazards

DUSTS:	Produced when solid materials are broken down into finer particles. The smaller the dust, the greater the hazard.
MISTS:	Tiny liquid droplets that are formed from liquid materials by atomisation and condensation processes such as spraying.
METAL FUMES:	Created when metals are vaporised under high heat. The vapour is cooled quickly and condenses into extremely fine particles.
GASES:	Airborne at room temperature. Able to diffuse or spread freely and quickly. Often odourless and invisible.
VAPOURS:	Gaseous state of substances that are liquids or solids at room temperature. Formed when substances evaporate in the way water vapour evaporates from water.

Filter Types

GAS FILTER	COLOUR	PROTECTION AGAINST	EXAMPLE
A	BROWN	Organic Gases & Vapours	Solvent, Paint, Paint Sprays - Boiling Point above 65°C
B	GREY	Inorganic Gases	Chlorine, Hydrogen, Cyanide
E	YELLOW	Acid Gases	Sulphur Dioxide
K	GREEN	Ammonia	Ammonia and its Organic Derivatives (Amines)
ABEK	B G Y G	Multi Purpose Filter	Combination of the Above
AX	BROWN	Low boiling point organic gases and vapours	Methanol, Acetone or Acrolein - Boiling Point below 65°C
P1, P2, P3,	WHITE	Particulate Filter

Half Face Twin Filter Mask - Class 1

- 13601 Thermo Plastic
- 23602 Silicone

- Twin Filter Respirator
- Re-Useable/Disposable
- Lightweight
- Unique Cradle Headband
- Easy Adjustment

STANDARD: EN140  
COLOUR: Black, Grey  
SIZES: Medium - Large

Filters not Included

3720 C1 Half Face Mask Climax 757-S Silicone

- Natural Blue Silicone Material
- Valve Holder With Membrane For Easy Breathing
- Comfortable Neck Harness
- Bayonet Filter Thread Connection
- 0.247kg Weight
- Takes 757 N Series Filters

STANDARD: CE  
EN140 1998  
COLOUR: Black/Blue  
SIZES: One Size

Climax Full Face Single Filter Mask - Class 2

3646 Natural Rubber

- Full Face Mask For Use With All Class 2 Single Filters
- Made Of Natural Rubber
- Anti Scratch Coated Polycarbonate Visor
- Harness With Five Anchor Points

3647 Silicone Rubber

- Full Face Mask Used With Class 2 Single Filters
- Anti Scratch Coated Polycarbonate Visor
- Harness With Five Anchor Points
- Filter Threaded Connection: Standard EN 148-1
- Weight: 580 GR

STANDARD: Masks: EN136  
Thread connection: EN148  
Visor: EN166

COLOUR: Black/Orange  
SIZES: Large

Filters not Included

3710 C1 Half Face Mask Climax 800 Natural Rubber

- TPE Rubber Material
- Valve Holder With Membrane For Easy Breathing
- Comfortable Neck Harness
- Bayonet Filter Thread Connection
- 0.131kg Weight
- Takes 757 N Series Filters

STANDARD: CE  
EN140 1998  
COLOUR: Black/Blue  
SIZES: One Size

3641 Half Face Single Filter Mask Class 2 Silicone

- Half Mask to use with all Class 2 Single Filters
- Wide Contoured Sealing
- Reduced Re-breathing of Used Air
- Latex Free Straps

STANDARD: EN140 Class 2  
COLOUR: Black  
SIZES: One Size

Filters not Included

3653 Full Face Twin Filter Mask Class 1 Rubber

- High Performance Twin Filter Full Face Mask
- Lightweight and Low Profile Ergonomic Design
- Three size Face Piece for Comfort
- Unique Cradle head band and yoke, eases adjustments
- Contoured Revert Seal, for high level of comfort

STANDARD: EN136 Cat 3  
EN166  
COLOUR: Black  
SIZES: One Size

Filters not Included

Filters for Full and Half Face Masks

Class 2 Filters

- For All Masks That Take A Single Filter
- Interchangeable Between Manufacturers
